

Jungle senses—KS1

Key messages

- That the jungle is also called the rainforest
- That the rainforest is hot and wet
- That many types of plants and animals live in the rainforest
- That different plants and animals live in different layers of the rainforest
- That humans live in the rainforest
- Some everyday foods come from the rainforest

Workshop content - students will:

- Think about what it would be like to be in a rainforest
- Dress up like the layers of the rainforest
- Investigate rainforest artefacts using their sense of touch and smell
- Listen to the sounds of different rainforest animals
- Make a rain forest animal to take home
- Meet a real rainforest animal

National curriculum links
